Name: _____

The Bristol children's Christmas party is going to be held this weekend. There are gifts for all the children.

The organizers have spent £14.69 per gift and are expecting 56 children. TIP: **They will be buying 56 gifts.**

How much was spent on gifts? ____

What if 100 children came? ____

What if 200 children came? ____

After all that planning only 50 children came to the party, how much will they get back when the uncollected gifts are returned?

_____
