

## Pencil Sharpener Rules

You may:

- Sharpen your pencils in the morning.
- Sharpen your pencils after school.

You must not:

- Sharpen your pencil during the day.
- Sharpen your pencil when an adult is talking or giving instructions.

If your pencil goes blunt during the day you must take it to the front and exchange it for a sharp one.

You can use a handheld sharpener to sharpen colours during the day.

Those are the rules.
